

MILES KANG

408-889-3083 / milesjkang@gmail.com / github: @kilometerskang / https://kilometerskang.github.io/me

UNIVERSITY OF CALIFORNIA, LOS ANGELES
Computer Science, B.S.

Class of 2022
GPA: 3.81

Coursework:

- ❖ Data Structures & Algorithms
- ❖ Computer Organization
- ❖ Discrete Structures
- ❖ Operating Systems
- ❖ Computer Graphics
- ❖ Software Construction Lab
- ❖ Abstract Linear Algebra
- ❖ Applied Numerical Methods
- ❖ Algorithms/Complexity (IP)

Skills and Platforms:

- ❖ **Languages:** Python, C++, C, Javascript, PHP, HTML/CSS/SASS.
- ❖ **Libraries/Frameworks:** React.js, Node.js, Express.js, MongoDB, MySQL, Jest, Enzyme.
- ❖ **Tools/Workflows:** Git, Docker, Scrum/Agile, Jira, Trello.

EXPERIENCE

Software Engineering Intern | UCLA CCLE

April 2020 - Present

Develop full-stack LTI tools to integrate into Moodle/Canvas (used by over 35,000 students/faculty) using **Node, React, Express, and MongoDB**.

- ❖ Build a user-friendly frontend with React hooks and Instructure UI.
- ❖ Write RESTful APIs to send/retrieve user and course data between the client and MongoDB.
- ❖ Write **Jest/Enzyme** unit tests for airtight functionality.

Contribute frontend and backend features for UCLA's CCLE Moodle server. (**PHP, Javascript, MariaDB**)

Use **Git** and **Jira** for collaboration and code review, **Docker** for local environment.

Dev Team | ACM Teach LA

Sept. 2019 - Present

Develop web education tools for students at local Title I schools.

Contribute to our online code editor (**React, Express, Firebase**): editor.uclaacm.com

Create interactive single-page modules for ACM AI's machine learning course.

- ❖ Incorporate **Javascript** libraries such as FunctionPlot (d3.js), math.js, and anime.js.
- ❖ Beautify frontend with Bulma CSS framework.

Provide mentorship for onboarding members.

PROJECTS

Interactive Shell

C

Wrote a script in **C** to send client's keyboard commands to a server and return the output from a specified shell program (i.e. Bash).

Experimented with polled I/O, forking, data compression, and inter-process communication.

Record Player Simulator

JS, WebGL

Designed an in-browser 3-D interactive record player / shooting game with **Javascript**.

Implemented animations, collision logic, gravity, and more with a **WebGL** framework.

Personal Portfolio

React, Node

Created a **React** app to showcase projects and involvements: kilometerskang.github.io/me

Styled using **SASS**.

HONORS

Upsilon Pi Epsilon | CS Honor Society

Inducted Fall 2019.

AIME | American Inv. Math Exam

Top 2.5% scorer on AMC 10 (2017), top 5% on AMC 12 (2018).
